Dedication

In a time when lack of communication between students and administrators has created complex problems on the campus — high school and college — we consider ourselves fortunate to have a principal whose office is always open to the individual student. Mr. Fields has shown great interest in the problems of his students and is more than willing to listen to us.

We hope to express our appreciation by dedicating the 1969 URSA MAIOR to Mr. Burl Fields.

Student

Student government — the concept causes many to laugh. What can students do, what powers do the students really have?

I do not believe this is true. Students have power. Ideas can be suggested by students, and if followed with the proper courses of action, will succeed. These courses of action must be one that show the students capable of responsibility and deserving of constructive change. Only when students voice their opinions and ideas in mature, responsible ways will student government become significant. Students must use channels open to them, for only then will they be looked upon as responsible, deserving citizens.

Government

We on Branham's Student Council have come to realize that a great deal can be accomplished if we work through the "System" and closely with the Administration. For this reason, I see the second semester as one of Branham's most successful in term of student government activities.

We have begun to revise the inadequacies of our constitution and we hope that our decision and action this semester will set a precedent for an active and responsible student government at Branham for the years to come.

Dear Branham,

I want to thank you for giving me the opportunity of knowing your way of life and thinking.

I tried to do my best for you to know about the Chilean way of life and thinking which is very similar to the one here in the United States.

I will never forget this great experience and I hope this exchange program will go on because I personally think that it leads to a better understanding and knowledge about other people from other countries.

Sincerely,
Carmen

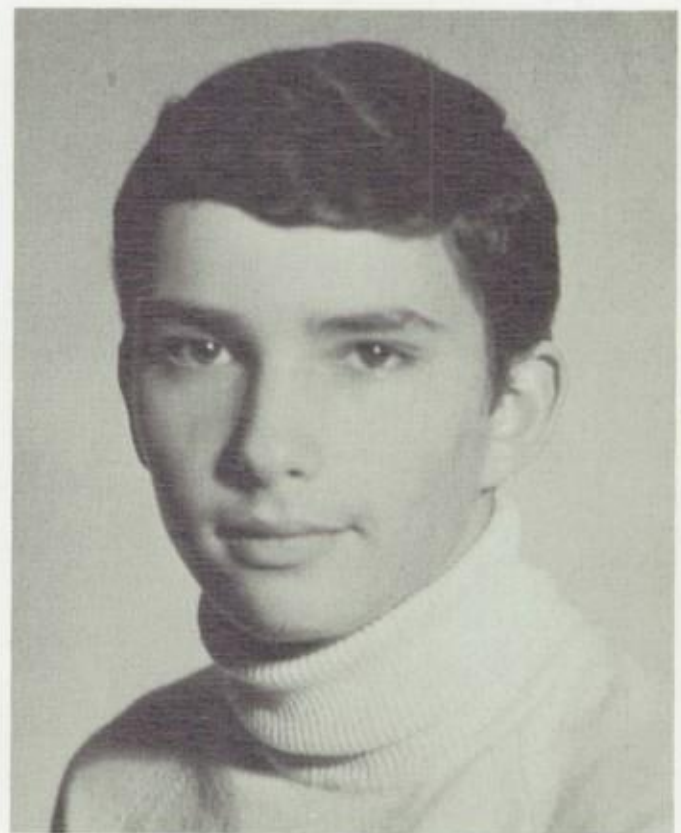

To come to a foreign country and be left alone with people you hardly have heard about and then have to acquaint yourself with the language and customs of your host is a big task, and for me it would have been impossible, if I hadn't been helped by my family and all you here at Branham. I thank you for giving me the opportunity to spend probably the most important part of my life here.

Even if I do not get credit for this school year in Denmark, I will gain from it in experience and knowledge thanks to my friends and teachers at Branham High.

Sincerely,
Lars Albertsen

I'm very happy to have come to Branham High School and the city of San Jose for half a year. I wanted to come to the United States in the Youth for Understanding because it is the best program for exchange students and because I want to know a new people and the beauty of their cities and make more friendships. I hope that everybody can participate in this exchange student program and go to another country because it's really good.

Gary

I hope you have a
very successful future
with all the happiness
in the world.

We have had some
good times in the
library. Have a good
summer.

God Bless
